The image shows a software interface for creating architectural drawings. The main workspace displays a detailed floor plan of a gymnasium, with walls and structural elements drawn in red lines. A black circle is placed on the plan, likely representing a fire extinguisher. The interface includes a top menu bar (File, Edit, View, Help), a top status bar with room and asset information, and a left sidebar with various tool palettes. The tool palettes include drawing tools (Select, Hold, Intersection, Center), measurement tools (Distance, Measure, Running Measure), conversion tools (Poly Overlay, Endpoints, Nodes), map tools (LAT-LONG, Street, Aerial, GPS, Walk-Thru), drawing attributes (Walls - Blue Heavy Line), layers (Walls), drawing tools (Lines, Continuous Lines), and text tools (Calibri (Body), 999). A small inset map is visible in the bottom right corner of the workspace.
